## BIOGRAPHY & FACTS

Compiled & translated by Rykoff.fm

«The Magnetic Brothers are an electronic music production duo from Russia and they might just be one of the best kept secrets in the dance music industry. Their following grew immensely over the course of 2010, not only in their home country but also worldwide. The duo's production style is quite diverse to say the least. They are equally adept at writing beautiful cascading melodies for progressive house and trance, soulful grooves for deep house and twisted rock solid techno. Generally the end product of a Magnetic Brothers production draws on influences from all these styles and that's what makes many of their pieces so unique» - Alexander Mitch (Change Underground).

Today Magnetic Brothers discography is total of more than 200 releases (incl. albums, EP, singles, remixes and compilations) signed on top various foreign and native imprints: Armada Music, Black Hole, Zouk Recordings, Movement Recordings, Molecule, Baroque, Flow Vinyl, Spring Tube, Keep Thinking, Balkan Connection, Avenue, Highway Records, Visceral, Particles, PHW, Yin Yang and Deep Blue Eyes.
