LANA KENOBY (St. Petersburg, Russia)

House (progressive, tech, commercial)

Girl... Is wearing the sound,
Keeps the secret of the dancefloor.
Lots of faces
And myriads of masks...

Lana Kenoby's artistic breakthrough has started from residency at one of the best (and maybe the first) pre-party clubs of Saint Petersburg — gorgeous 7 Sky Bar where Lana developed as a DJ. According to her story, well-known Russian DJ Dmitry Chernov with his wise advices and invaluable support played a huge role in evolution of her musical career.

Stunning technics with excellent musical taste, fabulous feeling of the dance floor, beauty and incredible charm (such a charm that every single man will lose his head looking at Lana) made Lana Kenoby one of the most popular, successful and desired girl DJs in Saint Petersburg and whole Russia.

Unlike a lot of colleagues trying to be trendy Lana plays only those tracks that she likes. She prefers tech house, progressive and vocal house. Her sound is always up-to-date and 100% dance floor oriented. Today she loves production by Oliver Koletzki, Boris Brejcha and Format:B to name a few.

Lana Kenoby is never satisfied with what has already been achieved. She's steadfastly moving forward. Every weekend she's on tour playing both at small VIP parties for celebrities and massive festivals and raves. Lana regularly participates in worldwide known Kazantip festival, releases official mixes and compilations and produces her own music. Today Lana Kenoby is definitely one of the most interesting DJs on Russian club scene.

DJ Natasha Baccardi (St. Petersburg, Russia)

Let's light up the dance-floor!!!

Reality, emotions, feelings, sensations...It's impossible to experience all this just by tactile means or eyesight...The only way to taste it exists due to fruits of one's soul creativity. Creativity is performance, image, energy, output. It's necessary to give oneself totally, only in this case you can reach 100% success..

Unfortunately, such simple truth has been forgotten. Considering performance of some club Dj s, we can guess that for some scene performers' it's just convenient to forget about this. They have simplified their tasks up to the minimum – compiling a record, filling up pockets with a new royalty, going away...But isn't it boring? It's just stale, without a trace of personality. Just some of them know how to stay different from others, Original in the capital letter "O". Only those who live for their work, give themselves to the audience, breathe in time with the dance-floor can be called bright and really outstanding.

Natasha Baccardi is a girl from Saint-Petersburg. What we can say about her is that she's flying together with the fresh wind of souls of electronic music experts. Bright, easy to remember, stylish and touching...It seems like the most commonplace phrase "she makes people happy" was designed specially for her. Each performance is not just impeccable music selection, but also eccentric image full of harmony, dazzle look, and what's more – inflammatory dance-show right behind the dj stand. Apart from amazing sound and visual presents, everyone who has ever visited her performance, was flooded with pure and warm emotions, making you forget any negative feelings ever stored in your soul. She leaves a trace in memory, it's too difficult to forget her! Black-haired girl with innocent eyes, millions of watt of energy, perfect music compilation and exclusive costumes, each prepared for a new performance...She will flash by like a whirlwind through the country and will prove that even among Djs gods exist...!!!

DJ Flower (Hungary)

Genres: vocal-house, electro-house

Formerly: Playmate of the Year 2006 Hungary, Miss Hawaiian Tropic 2007 Hungary

Past

Flower is the DJ that makes hell breaks loose only with her appearance. At first she was only posing for the photographers at a DJ booth, but, from that moment on, no one listened to the official DJ guest. Actually, the music was playing from a mix CD and she was only acting as a DJ, but they didn't even care about that. This kind of interest wasn't new for her at all, but she certainly felt the energy she can free up with music. In that very moment she made her decision that she will learn all the mixing techniques to become a professional DJ.

Present

When it comes to music, Flower shows no mercy. Socialized in the most famous clubs of Budapest, her set's essence is a fine blend of vocal-based electro, house and disco, sometimes twisted with a massive bassline from the techno-era. However her performances are also visual: show-like, spectacular and very much audience focused, that she regards as a very important factor besides her professional mixing technique and quality music.

She's been spinning with music since she was a teen. She fell in love with rhythm, so while her fellow models do mirror checks, she's browsing the net searching for new sounds. She's been playing for almost 4 years now in the best clubs all over the world.

Future

Coming from the beauty industry, and being a girl in this profession, it's clear for her that she has to prove twice as much as a normal DJ to convince the doubters. Still have doubts? Check her and feel the Flower-power in the world's most famous clubs and venues!
