"It's great. Love the breakdown. Just played it at the Subculture Festival in Perth, Australia, and it was easily my biggest track ... Pre-recorded for my Xmas and NYD Radio 1 shows. Number 1 in my December Hype Chart."
Nic Fanciulli

"I like it!" Pete Tong

"Like pitching up at Chernobyl and finding a huge party in full swing, with DJs dropping tunes like this that sound beautifully unfamiliar, carving the same terse, multi-layered groove as producers like Trentemoller. A GREAT, brave release that has got me really inspired! 9/10" Iain 'Rosko' Harper
(House FM)

"Great new release ... superb driving bass ... radio debut tonight. 9/10"
Chris Bailey (HFM Ibiza / Fire 107.6FM, Bournemouth)

"Just had to email straight away to say how incredible the Manoo and Francois A mix is. Mind-blowing is about the only word for it. Will be battered on my show ... Awesome stuff. Thankyou!" Chris Bailey (HFM Ibiza / Fire 107.6FM, Bournemouth)

"Great deep electro thing. Right on the button! Radio and chart support this week." Danny Hird (Viking FM)

"Excellent pounding slice of hi-tech-jazz with a killer bass-line." Paulette (FG DJ Radio / 98.2FM France)

"Love 'One Week On Cuba'. Gonna play it on my show." Rob Da Bank (Radio 1)

PRESS

TUNE OF THE WEEK 5/12/05 - "Part techno, part electro and it does the business. Swirling pads, tech beats and rough, analogue basslines combine to bridge the gap between the deep and the progressive. This is sonic silk and steel." (BBC Website / Dance Music)

"Shit hot!" Kate Wright (DJ Mag)

"An absolute belter. The last four or five records have been good even by Buzzin's standards." Ben Lovett (Entertainment News / New Nation)
