UMA MOTIV

“Uma Motiv” is a Russian duo which consists of Uma (vocal) and Motiv (producer). Uma is entirely devoted to a Vedaic culture. She believes that she has met Motiv in past live and their soles recognized each other in present time. Motiv’s opinion is more realistic. He says they met on the street of Moscow where Uma handed out Vedaic books. Shortly after, Uma invited Motiv to her concert. He enjoyed it enough to ask her to unite into a band. “Uma is my muse now. And our music is an attempt to show that when you love somebody, life becomes beautiful”, Motiv says.

Russian music duo “Uma Motiv” brought a new sound into a trip-hop style. Keeping the best trip-hop parts as a fascinating melodies and meditatively bass line, they replaced European melancholy with Indian themes. In their songs you will not find traditional trip-hop depression, instead they are filled with love, light, positive energy and wisdom.

BUTTERFLY EP

Tags for a debut “Uma Motiv” mini album “Butterfly” are “love”, “sun”, “hope”, and “happiness”. It is so nice to bike somewhere in a sunny day having an optimistic “Uma Motiv” trip-hop music in your mp3 player!

Songs of a duo “Uma Motiv” are meditative, calm and light. And only “Parallels” song is different. It is full of energy and you will feel it immediately. “Subtle world” sounds like a rhythmic spiral with Uma’s vocal moving around. The main song “Butterfly” is very deep and meaningful, it is the strongest song on the album. You will see new patterns on “Butterfly” wings every time you listen to it. Hopefully “Uma Motiv” will keep on going and we will enjoy their full length album soon.
