

## Nez Mirage - Elementronic

Nez Mirage has been producing Elementronic muzik since 1994, when he began composing pieces for an alternative dance company. He has since built a vast pallet of recordings working in various projects, including 9DOS (Nine Doors of Sight), EleMental Muzik, Shamans Anonymous & Eyesage.

Musical genres bleed together and find harmony within the dissonance, as uncontrollable bodily movements respond to Earth-solid beats. This is an organic sound--somewhere between chill psy-glitch & edgy ambient. Comprised of lost & found aural debris, these are towering totems of infinity, celebrating our primal quest for the ultimate sound.
