BIOGRAPHY:

Alex Moerman & Paul Gorbulski, two of the currently most happening Dance producers in Europe, are the creators of Crystal Lake.

Their unique style is "Hands Up" – a mixture of Eurodance & Hardstyle.

In studio, Alex contributes the beats and sound design. He Used to play the drums and therefore has a great ability in creating the right groove for Crystal Lake's tracks.

Paul is in charge of the melodies and the lyrics. When Paul was a kid he used to play the violin, after training for 1 year he threw the violin against the wall and broke it! Guess that wasn't meant to be. After his unsuccessful violin experience Paul started taking piano lessons, which lasted for 8 years!

Crystal Lake was founded in Friday 13th 1999, since then Alex & Paul were busy breaking their own personal records, always aiming higher & higher towards their ultimate goal – Becoming one of the most influential dance music acts in the world.

Over the years Crystal Lake had numerous amounts of live shows, dozens of top chart positions, over 5 Million views on YouTube, their own radio show (Crystal Nation) broadcasted worldwide and regularly featured on compilations such as Dream Dance (Sony), VIVA Club Rotation (Ministry Of Sound) & Future Trance (Universal).

They remixed and worked with world known artists such as the Eurovision pop-stars A Friend In London, R.I.O, Rednex, ItaloBrothers and many more.

In 2010 Crystal Lake signed a contract with Zooland records, home of Cascada, Manian, ItaloBrothers & R.I.O. This made one thing very clear – They are here to conquer the world.

"HANDZUP MOTHERFUCKERS!"...
