

A person is sitting on a narrow, rocky ledge of a cliff. The cliff face is a warm, golden-brown color. Below the ledge, a vast, hazy landscape of rolling hills and valleys stretches out under a bright blue sky with some light clouds. The sun is visible on the left side of the horizon, creating a lens flare effect. The overall scene is dramatic and scenic.

01. Headstrong feat. Stine Grove - Tears

I'll keep it simple, I'll keep it true All the love I have I'll give to you

I'll keep it easy, I'll keep it real All the love I have is what you'll feel

I'll make it clear, I'll make you see I'll hold you near, close to me

I'll lift you up, we'll touch the sky I'll wipe away those tears from your eyes

I'll wipe away the tears from your eyes

I'll wipe away those tears from your eyes

I'll take it deeper, I'll break it down

Only love can turn your life around

I'll make it stronger, I'll keep it free

All the dreams i have are what you see

Love is here, just let it be I'll kill the fear, deep in me

I'll shake you up, I'll make you try

I'll wipe away those tears from your eyes

I'll wipe away the tears from your eyes

I'll wipe away those tears from your eyes

02. DJ Shah feat. Adrina Thorpe - Who Will Find Me

In a world of desire, oh who would come and catch you when you fall
in the wind and the fire? oh who would come to save you?
High above any danger...

Locked inside the tower of your mind, dreams are veiled; passion blinded.

Safe from fear and fire. Oh who will find me?

In your midnight eyes, I see a summer sunrise.

Fly far beyond these silver winter skies. I see a beautiful life. Oh, come and get away.

Do you see the horizon?

Walk upon the water, you will find all is still and yet alive in the morning light.

Oh who will find me?

In your midnight eyes, I see a summer sunrise.

Fly far beyond these silver winter skies.

I see a beautiful life. Oh, come and get away.

Dance dance in the morning light.

Open your darkened eyes.

Hey, hey, it's a beautiful day. It'll be ok. It'll be ok.

Take a look, spin around, this is where I find you... where the roses bloom.

Leave your cares, leave your fears, leave them all behind you... yeayah.

It's a beautiful day in the city of shining light.

It's a beautiful day. This is where I find you... yeayah

03. Above & Beyond feat. Hannah Thomas - Home

A person is sitting on the edge of a high, rocky cliff. The background shows a sunset over a valley with mountains. The sky is filled with soft, golden light and wispy clouds. The overall mood is contemplative and serene.

Here I come to find myself – catch the tide.
Looking for a peace at the end of the line
Sometimes I can't help myself feel the tide
I'm all at sea and so unwise
I'm so afraid I lose your love as times goes by
The courage is a fire – and a beacon so bright
The sunset builds a memory – our love signed
And all I see becomes a lie
Will I wash away – turning like a stone?
I need a place where I belong!
Call a setting sun to throw me down the road
And take me to a place called home
I close my eyes I know you're there – love of mine
Standing on the shore in a world I designed
The sunset fires a lonely flare into the sky
And all I see we say goodbye
Will I wash away – turning like a stone?
I need a place where I belong!
Call a setting sun to throw me down the road
And take me to a place called home
Looking for a place called home

04. Kostya Veter feat. Madelin Zero – Envy

All the time I want you,
all the time I want to hear you say that you care,
but you're not there,

All the time I hunt you,
follow you home fly on the wings of a prayer,
but you're not there.

Love, what are you doing to me?
You seem to pass right through me
on your way somewhere else.

Love, when will you discover
I feel you like no other...envy.

Talk to me

your words sound sweet
they fill me with envy,
they turn my heart green.

Talk to me
your words sound sweet
they fill me with envy.

05. Ridgewalkers feat. El - find

They always leave the best 'till last
Have understanding, no questions asked

You find yourself in what you see

You found yourself in me

The day is short, the night is cool
And this night, it was made for fools

You won't find fools like me and you

I found myself in you

They always leave the best 'till last
Have understanding, no questions asked

You find yourself in what you see

You found yourself in me

The day is short, the night is cool
And this night, it was made for fools

You won't find fools like me and you

I found myself in you

You won't find fools like me and you

I found myself in you

09. Smart Apes feat. Kate Miles - Smile

Took a picture of your smile
And I put it in my mind
Sometimes the love is bright
And even the sun won't wake up

And the moon will leave the skies
And the stars will fall at once
And the ocean will be dry
If you took away your smile

10. Kyau & Albert feat. Viola Manigk - Always A Fool

I took a walk down the street to a common place.

Don't need a gun to blow my mind.

Carrying crosses for the longest time.

Why don't you see me go this way?

I'm watching me without you, alone here in the cold,

It seems so very real to me.

I'm always a fool with my love, With scheming ideas to excuse.

I'm always a fool and my eyes

Deserted from love, they used to hang on.

I started to watch myself with a mirror's eyes,

And I begin to slip away.

And no one's here to reach the other side with me.

Why don't you see me go this way?

I'm watching me without you, alone here in the cold,

It seems so very real to me.

I'm always a fool with my love, With scheming ideas to excuse.

I'm always a fool and my eyes

Deserted from love, they used to hang on.

Stay with me Won't you wait for me
Care for me
And never say never
Love, You're in my flesh and bone
Where ever you go I'm home

In my heart In my soul
Like the air I breathe You're in my head
In my heart In my soul
Like the air I breathe
Yes you're my favourite need
I'll follow you, I'll follow you
When everything seems lost
I'm stuck and falling down
You will guide me home So promise me

Care for me
And never say never
No never say never again
No never say never again

12. Roger Shah feat. Adrina Thorpe – Island

Hello? Can you hear me?

One stone cold world I see your silence

Maddens my hear Oh, ten thousand words

Come raining down on your defences

Why do we fall Into the same mistakes again

When will we learn?

We can't tame the beast Can't catch the wind Here's the key

I am an island You are the sea I am mystery In this oasis

We could be free Are you listening?

This silent land lies Undiscovered and neglected

Awaits impatiently For the lowering of the sea

Why do we fall Into the same mistakes again

When will we learn?

We can't tame the beast Can't catch the wind Here's the key

I am an island You are the sea I am mystery In this tall tower

I throw you the key

Would you fight for me In this oasis We could be free

I am an island You are the sea

Come wash over me In this tall tower

I throw you the key Would you fight for me

In this oasis we could be free
