Jokerface has been one of the top disc jockeys in Germany for the past Nineteen years. His skills on the turn table have proven to be timeless in that he is still spinning the latest and hottest tunes for some of the biggest clubs in Europe. Although most of his publicity comes from his night life image as a DJ, behind the scenes he is also responsible for a hand full of popular music tracks produced by his recording label Jokerface Records which is also where he got the name "Jokerface" from .

Jokerface has mixed the Planet Radio at 100.2 "Mix and Live show" (Frankfurt), SWR1 Unser Ding "Live show" (Saarbruecken), Radio NRJ "Live show" (Munich), KISS FM "Mix and Live show" (Hong Kong). For that, he has chosen to take the sacred vow of staying true to music that makes crowds get hype.

Right now, JOKERFACE is working overtime traveling all over the world entertaining his fans. As a result, his international connections are promoting his status by branching his image out into the world of endorsements. By popular demand, JOKERFACE brings the club mixes to your stereo.
